### Current Situation

Today we transition into a period where local resources take over most of the personnel on the fire line. All eight engines, and two of the four hand crews are based in the Butte Unit, and most outside apparatus and personnel have been released. Crews will again spend the day mopping up, strengthening control lines, and conducting fire suppression repair activities. Firefighters are making good progress despite the steep, rough terrain.

The Forbestown Fire is 58 acres and 98% contained with crews monitoring for any remaining hot spots. Damage assessment continues, and we want to remind the public to drive carefully and watch for heavy equipment and large vehicles near the fire.

Evacuations: none

Road Closures: none
